## 4. Data preparation workflow –

## 5. Table row counts –

The screenshot shows the MySQL Workbench interface. The 'Navigator' pane on the left displays the 'SCHEMAS' tree, with 'assignment\_dallas' expanded to show its tables. The 'SQL File 7\*' pane in the center contains the query: `select count(*) from assignment_dallas.diminspection;`. The 'Result Grid' at the bottom shows the query result: `count(*)` with a value of `60886`.

count(*)
60886
